## 026 - DISTRICT ATTORNEY

### Operational Summary

#### Mission:

To enhance public safety and welfare and create a sense of security in the community through the vigorous enforcement of criminal and civil laws in a just, honest, efficient and ethical manner.

#### Strategic Goals:

- Protect the public from criminal activity.
- Create a sense of security in the community.

#### Key Outcome Indicators:

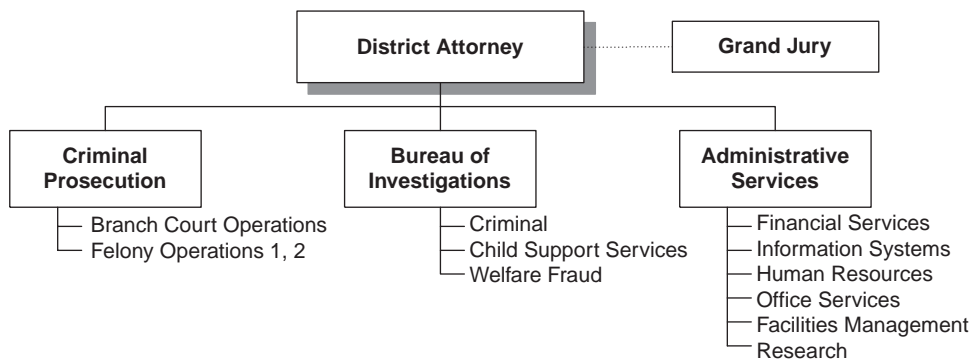

Performance Measure	2004 Business Plan	2005 Business Plan	How are we doing?
	Results	Target	
<b>FELONY CONVICTION RATE</b> <b>What:</b> Percentage of filed felony cases resulting in conviction. <b>Why:</b> Measures the Office's ability to effectively represent the People of the State of California.	Felony conviction rate exceeded 90%.	To meet or exceed 90% conviction rate.	The Office has maintained excellent conviction rates. However, conviction rate may decline if funding is further reduced below current level of service.
<b>PUBLIC SURVEY ON FEELINGS OF SAFETY AND SECURITY</b> <b>What:</b> An annual survey measuring public perception of safety and security. <b>Why:</b> Indicates achievement of the Office's goal of creating a sense of security in the community	On a 10-point scale with "1" representing a feeling of "extremely unsafe" and "10" representing a feeling of "complete safety," the most common response was 9 and the mean was 7.82. This favorable rating has been sustained from previous year's surveys.	To meet or exceed prior year response.	Survey responses indicated Orange County residents feel safe. Yet, if sufficient funding is not maintained, caseloads may reach unmanageable levels, compromising our ability to adequately prosecute criminals and thereby, jeopardize public safety.

#### FY 2004-05 Key Project Accomplishments:

- In 2004, the District Attorney initiated prosecution on 8 cold-case homicides. The individuals believed responsible for these crimes were identified as a result of collaborative efforts of the Orange County law enforcement community, including the proactive efforts of the Office's TracKRS (Task Force Review Aimed at Catching Killers, Rapists, and Sex Offenders) Unit.
- The Office played a key role in implementing the California DNA Fingerprint Initiative (passed as Proposition 69 in November 2004). This requires certain persons to provide law enforcement with a DNA sample to add to State DNA database. An Orange County prosecutor co-authored the initiative and Office's Bureau of Investigation is recognized statewide as having set in place a standard for DNA collection and advises other counties on establishing their protocols.

- The Office secured civil judgments against several major oil companies requiring them to clean up gasoline and MTBE contamination at over 300 gasoline stations, protecting the water supply of Orange County.
- A two-year investigation by the Office, with the assistance of the California Department of Insurance and the Franchise Tax Board, led to the filing of felony fraud charges against owners of an outpatient surgery center involved with recruiting thousands of healthy patients to have unnecessary surgeries and bilking more than \$14 million from insurance companies and employers.
- In 2004, the Office continued to integrate technology to maximize resource efficiency. The DA's Case Management System has been expanded to take full advantage of its web-based architecture, implementing electronic subpoena transmission to police officers and providing real-time case information to law enforcement partners and victim witness service providers. The Office continued working collaboratively with the Superior Courts to automate over 500,000 annual case transactions (filing, hearing dates, dispositions, etc.) between the DA and the Courts.

## Organizational Summary

**Administrative Services** - This Division provides a full range of support services including accounting, budgeting, human resources, information systems, office support services, facilities management, research, purchasing, and compliance review/audit.

**Bureau Of Investigations** - The Bureau is comprised of law enforcement personnel who provide investigative, forensic computer and other related technical services for the agency's prosecutors. Investigators provide trial support by conducting complex criminal investigations as well as interviewing and subpoenaing witnesses.

Investigators also assist other County law enforcement agencies with complex investigations, cases involving multiple jurisdictions, and investigation of officer-involved shootings throughout the County. The Office's TracKRS Unit assists local law enforcement in the discovery, investigation, and apprehension of homicide and violent sexual offenders.

**Criminal Prosecution** - The Criminal Prosecution Division prosecutes of felony and misdemeanor crimes.

**Felony Operations 1:** Prosecutes the majority of violent felony crimes. Units in this area include: Homicide, Sexual Assault, Family Protection, Gangs, TARGET, and Felony Panel (prosecutes a variety of felony crimes not handled by specialized felony units).

**Felony Operations 2:** Contains vertical and non-vertical prosecution units. The units include: Economic Crimes (auto theft, auto insurance fraud, workers' compensation insurance fraud, high tech crime, identity theft, and high-dollar fraud crimes); Consumer and Environmental Protection Unit (prosecutes improper usage or dumping of hazardous materials and companies and individuals that engage in fraudulent business practices); Narcotic Enforcement Team (prosecutes major narcotic traffickers and illegal drug manufacturers); Career Criminal (prosecutes dangerous repeat offenders); Welfare Fraud Criminal Prosecution Unit; Law and Motions Unit (researches and presents writs and

**Branch Court Operations:** Prosecutes adult misdemeanor crimes and conducts preliminary hearings in each of the five Justice Centers and handles felony and misdemeanor petitions in the Juvenile Justice Center. In addition, each of the five Justice Centers includes a Felony Charging Unit designed to make the filing of felony cases more efficient and consistent. Between new filings and the completion of existing cases, the Division handles over 51,000 misdemeanor cases annually, over 16,000 felony filings, and the vast majority of the 11,000 juvenile petitions presented to the Office each year.

### Ten Year Staffing Trend:

### Ten Year Staffing Trend Highlights:

- Each year since FY 2001-02, the Board of Supervisors has approved funding for five Attorney III positions to provide prosecution support to implement Proposition 36, Substance Abuse Crime Prevention Act (SACPA) approved by voters in November 2000.
- During FY 2002-03, the Office deleted six positions funded by the Regional Gang Enforcement Team (RGET) federal grant program, which ended on December 31, 2002.
- In FY 2003-04, the Board of Supervisors approved the Office's augmentation request converting six long-term extra-help positions to regular status to comply with Memorandum of Understanding requirements. During this fiscal year, the Office deleted one position for the Juvenile Justice Crime Prevention Act Truancy Program.

- For FY 2005-06, the Board of Supervisors has approved the Office's augmentation request to add five paralegal positions to handle trial preparation, respond to court orders, and meet the specialty court requirements.

## Budget Summary

### Plan for Support of the County's Strategic Priorities:

The Office is directly involved in four of the 2005 County Strategic Priorities that require funding: District Attorney High Tech Crime Unit (Strategic Priority 3A); Identity Theft (Strategic Priority #3B); Soil and Groundwater Contamination Prosecution (Strategic Priority #15); and Proposition 36 Underfunding (Strategic Priority #19). As funding allows, the Office will endeavor to support these priorities. The Office combined the High Tech Crime Unit and Identity Theft Strategic Priorities since identity theft crimes tend to fall under the category of high tech crimes.

### Changes Included in the Base Budget:

There are no significant changes in base budget requirements. FY 2005-06 budget represents continued operation at current fiscal year's level of service.

For budget purposes, a 5.34% increase over FY 2004-05 projected sales tax revenue is budgeted for FY 2005-06. In addition, the base budget also includes \$452,477 in Proposition 36 revenue to fund the Office's continued participation in this statutorily mandated program. This funding amount represents the Proposition 36 funding level allocated to the District Attorney in FY 2004-05. Any reduction in funding will require the Office to re-evaluate its ability to participate.

For FY 2005-06, the departmental budget includes funding for equipment supporting the High Tech Crime/Identity Theft priority. In addition, the Office is submitting one augmentation request to add five paralegal positions without requirement from the County general fund. To accommodate an immediate need for paralegals, the Office temporarily reclassified five attorney positions in the Fall of 2004. Our Office can no longer continue the temporary reclassification of the attorney positions and must restore attorney staffing to the budgeted levels to meet current workload demands.

## Approved Budget Augmentations and Related Performance Results:

Unit Amount	Description	Performance Plan	Brass Ser.
<b>ADD 5 PARALEGAL POSITIONS</b> <b>Amount:\$ 273,850</b>	5 paralegal positions for trial preparation, respond to court orders, and assist specialty courts.	Meet caseload demands and new court requirements.	2250

#### Strategic Goals:

- Assist the Juvenile and Criminal Courts to make well-informed and responsible decisions in criminal and delinquency cases.
- Provide protection to the community by managing Orange County's adult and juvenile probation population.
- Assist crime victims by presenting their interests to the court and providing support services.

#### Key Outcome Indicators:

Performance Measure	2004 Business Plan	2005 Business Plan	How are we doing?
	Results	Target	
<b>PERCENT OF COURT INVESTIGATIONS AND PROGRESS REPORTS SUBMITTED WITHIN FILING REQUIREMENTS.</b> <b>What:</b> Percent of investigative and progress reports submitted within filing requirements. <b>Why:</b> Measures success in Probation providing timely information to the courts for appropriate decisions.	100% of 1,020 adult investigation reports and 98.2% of 4,967 juvenile investigation reports were submitted to the Courts within filing deadlines.	Maintain on-time completion rates of 95% or better for submitting adult and juvenile investigation reports. These outcome objectives assume continuation of existing resource levels.	The results clearly demonstrate the department's ongoing success in providing information to the courts in a timely manner. Probation enhanced automation efforts to provide more robust information to the courts this year. The Department plans to measure court satisfaction in the future.
<b>PERCENT OF PROBATIONERS WHO DO NOT COMMIT A NEW CRIME OR LAW VIOLATION WHILE ON PROBATION.</b> <b>What:</b> Percent of probationers who do not commit a new crime or law violation while on probation. <b>Why:</b> Measures level of community safety by identifying probationers who do not commit a new offense.	66% of 4,662 adults and 60% of 2,076 juveniles terminated formal probation, and 93% of 1,196 juveniles terminated informal probation without a new law violation in FY 03-04.	Meet or exceed a rate of 60% or better of adults and juveniles terminating formal probation, and 90% or better of juveniles terminating informal probation without committing a new crime or law violation. These outcome objectives assume continuation of existing resource levels.	The results indicate the Department achieved the target for FY 03-04. Of concern, however, was a decline in this year's formal probation results compared with findings for the prior three years. Positively, the juvenile informal probation result remains above goal and similar to past years.

## Key Outcome Indicators: (Continued)

Performance Measure	2004 Business Plan Results	2005 Business Plan Target	How are we doing?
<b>PERCENT OF PROBATIONERS WHO DO NOT COMMIT A VIOLENT CRIME WHILE ON PROBATION.</b> <b>What:</b> Percent of probationers who complete and do not commit a violent felony crime while on probation. <b>Why:</b> Measures level of community safety by identifying probationers not arrested for violent crimes.	96.8% of 4,662 adults and 97.0% of 2,076 juveniles terminated from formal probation in FY 03-04 did not commit a violent crime during their probation supervision period.	Meet or exceed rates of 95% of adults and juveniles terminating formal probation without committing a violent crime while under probation supervision. These outcome objectives assume continuation of existing resource levels.	The FY 03-04 results revealed that almost all adult & juvenile probationers complete their probation term without committing a violent crime. These results are consistent with prior years' results and validate the continued success of probation & other law enforcement agencies in community safety.
<b>PERCENT OF PROBATIONERS EMPLOYED OR IN SCHOOL FOR FIVE MONTHS OR MORE IN THE PAST 12 MONTHS.</b> <b>What:</b> Percent of probationers employed or in school consistently or (for adults) at least 5 months. <b>Why:</b> Gainful employment and/or regular school attendance indicate successful progress of offenders.	57% of 10,051 adult probationers and 56% of 3,618 juvenile probationers in FY 03-04 were either employed or attending school regularly for a significant period while under probation supervision.	Meet or exceed a 60% rate of adult probationers and 55% rated of juvenile probationers who are employed or attending school regularly for a significant period. These outcome objectives assume continuation of existing resource levels.	While the FY 03-04 juvenile result is still slightly above the goal of 55%, the adult result for the first time fell below the target goal of 60%. The decline in both of these outcome results is cause for concern; a number of areas are being looked at as possible factors contributing to the drop.
<b>PERCENT OF IMPROVEMENT IN OFFENDERS FUNCTIONING &amp; LIFE-SKILLS ABILITIES AFTER ONE YEAR ON PROBATION.</b> <b>What:</b> Percent of improvement based on standardized assessments at intake and after one year on probation. <b>Why:</b> Measures effectiveness in addressing probationer's needs during their first year on probation.	Of 1,850 adults and 428 juveniles assessed in FY 03-04, 48% of adults and 61% of juveniles demonstrated some improvement in total functioning. 26% of adults and 34% of juveniles had enough improvement to reduce their need classification to a lower level.	Meet or exceed the current year results. This outcome objective assumes continuation of existing resource levels.	During year one on probation, nearly half of adult offenders and not quite two-thirds of juvenile offenders had made progress to address their needs in this measure. The loss of two Youth & Family Resource Centers has shown the need to get more resource-creative to serve this high-risk population.
<b>PERCENTAGE OF COURT-ORDERED RESTITUTION PAID BY PROBATIONERS TO CRIME VICTIMS.</b> <b>What:</b> Measures the percentage of court-ordered restitution paid in full in closed restitution cases. <b>Why:</b> Measures Probation's success in collecting restitution for crime victims.	Of 866 adult offender cases closed in FY 03-04, in 52% of them the victim was paid in full. These adults whose probation terminated paid \$2,649,637 in restitution. Of 650 juvenile cases closed, in 81% of the cases the victim was paid in full and a total of \$437,267 was paid to victims.	Meet or exceed the prior years' results. This outcome objective assumes continuation of existing resource levels.	Over half of the adult restitution cases and more than 80% of the juvenile restitution cases that closed in FY 03-04 did so with the victim being paid in full. The Department's collection officers work closely with probation officers and the courts to monitor and enforce restitution collection.
<b>VICTIM RATINGS OF SATISFACTION RELATIVE TO THE QUALITY AND MANNER OF PROBATION SERVICES PROVIDED.</b> <b>What:</b> Survey regarding victim satisfaction with the quality and manner of department services provided. <b>Why:</b> Measures victim satisfaction with services provided by the Probation department.	Surveys were mailed to 1,641 victims owed restitution or contacted for intake/investigations. Of the 236 respondents, 61% were satisfied with services, 23% were dissatisfied. In addition, 39% of all respondents requested further information.	Meet or exceed the prior years' results. This outcome objective assumes continuation of existing resource levels.	Over 60% (last year was 66%) of the survey respondents reported overall satisfaction with the victim services they received. Of note, the results for all ten survey questions were higher than the baseline year with courtesy of the staff once again being the area rated highest in satisfaction (66%).

## FY 2004-05 Key Project Accomplishments:

- Accomplishments listed below are linked to the Department's Strategic Goals.

- Goal # 1: Assist the Juvenile and Criminal Courts to make well-informed and responsible decisions in criminal and delinquency cases.
- Continued to assist the Courts by providing thorough investigations of criminal/delinquency cases and completing required reports on time. For the fiscal year, Adult Investigation completed 1,020 reports, 100% of which were submitted on time. Juvenile Investigation Completed 4,967 reports for the fiscal year, 98.1% of which were on time
- Completed a Memorandum of Understanding (MOU) to enhance coordination between the Probation Department and Social Services Agency (SSA) on cases specified in Section 241.1 WIC. These cases require collective investigations and recommendations to the Court on whether a child's needs can best be met through the dependency or delinquency court.
- Increased access to SSA's Case Management System information through a Probation-funded part-time SSA clerical position that increases productivity and expedites the timely completion of juvenile court reports to meet court filing deadlines.
- Created a new pre-trial assessment report in the Juvenile Court Division to alert the Court, District Attorney, and Public Defender about issues critical for the Court to make appropriate orders in those cases by enhancing the Juvenile Intake Assessment System.
- Implemented specific Proposition 36/PC 1210 training for Adult Investigators/Supervisors to ensure compliance with and understanding of new court rulings.
- Maintained the quality of investigations completed for the Court after the tremendous loss of investigative experience when a number of veteran investigators retired, by working closely with new Adult Investigators and pairing them with the remaining veterans in the Adult Investigation Unit.
- Initiated a study to formulate a new outcome indicator that focuses on the quality of the reports provided to the Courts in addition to the current measure of timeliness.
- Increased efficiency and productivity in the preparation of court reports through the use of Voice Dictation technology.
- Designed and implemented an automated probation violation process for adult cases whereby deputies can prepare probation violation reports on their computers and send them electronically to the adult court. The automated process has been very successful and ensures the Courts receive timely information regarding violations by probationers.
- Goal # 2:
- Provide protection to the community by managing Orange County's adult and juvenile probation population.
- FIELD OPERATIONS Continued to implement automated processes.
- Began software development that will automate the Risk/Needs Assessment of cases and provide more defined supervision strategies and case plan objectives, which is part of the department's major strategic effort to develop an automated Integrated Case Management System.
- Established Cadres to develop objectives for automated field books and evaluate an Adult Supervision paperless case file system.
- Implemented automated intake (new case referrals via e-mail) and increased usage of OnBase document availability in Adult Field Services (AFS).
- Continued research in the development of an automated method to capture and record probationer contact information to provide critical information in monitoring and evaluating the progress of probationers.
- Created a repository of probationer photos that is now available for online access and searching.
- Enhanced deputy field book sheets to include current photographs of each probationer being supervised.
- Planned a new workload study to assess the impact of increased automation on AFS staff.

- Continued to expand technology to enhance the effectiveness of probation supervision and resocialization operations.

- Upgraded laptop PCs for all applicable field staff and deployed replacement desktop PCs to the appropriate staff to replace technology-obsolete devices.
- Began development in the Special Supervision Division of OnBase document imaging technology for storing case documents, which will make them more accessible to users and assist in the development of electronic case files.
- Ensured the most effective use of technology by using the Integrated Case Management Steering Committee, Risk/Needs Development Cadre, and several other workgroups to assist Probation's development and use of automated systems.
- Enhanced the County's continuum of care for juveniles by \$8.4 million through Juvenile Justice Crime Prevention Act funding that supported three prevention programs, four intervention programs, and three secure confinement programs. During the year, JJCPA funding provided direct services for over 3,600 at-risk youth and juvenile offenders.
- Continued development of formalized supervision strategies for deputies supervising juvenile sex offender caseloads in the Juvenile Field Supervision Division, increased participation in the institutional case planning process, and attended the California Coalition on Sexual Offending Conference to hear from experts in the field on current best practices.
- Developed a new automated Placement Case Management System to more effectively track placement cases and meet both individual case plan requirements and monthly transmittal/tracking of data to the State Department of Social Services.
- Modified the automated Case Management System to facilitate increased tracking, monitoring, and reporting of Field Monitored (FM) cases when a substantial number of cases had to be banked due to the hiring freeze in 2003.
- Developed a mandatory Field Safety Skills STC course that will be offered during the 2004/05 training year for all field officers to address officer safety concerns.
- Assigned a Supervising Probation Officer to the WrapAround program at the Social Services Agency, which increased the ability of deputies to access these enhanced services for those juveniles who are at risk of out-of-home placement.
- Partnered in the multidisciplinary Juvenile Drug Court team to provide enhanced supervision and programming to address juveniles with substance abuse issues.
- Researched and prepared operational guidelines for County Counsel review on the use of Global Positioning Satellite (GPS) technology to monitor selected adult sex offenders on formal probation supervision.

- Supervised high-risk cases with home calls, searches, and drug tests.
- Placed medium-to-low-risk cases on FM caseloads with significantly reduced levels of service.
- Arranged with the Court and the District Attorney's Office to plead all new incoming misdemeanor Proposition 36/PC 1210 cases to informal probation, allowing more resources to be focused on the felony cases.
- More quickly identified non-compliant cases and revoked their probation, saving enough of the Health Care Agency's treatment dollars to fund an additional position for the Proposition 36/PC 1210 Units for the next two years.
- Began separate tracking of all Proposition 36/PC 1210 cases that are sent directly to monitored status at the initial assessment point. Over the next year, the recidivism of these cases will be tracked, along with all FM cases, to assess any negative impact on community safety.

- Used workload standards to ensure high-risk offenders received the necessary level of supervision and services for community safety even as staff reductions were made due to budget cuts.
- Reviewed and adjusted supervision levels in the Special Supervision Division based on offender type/risk assessment and prioritized allocation of existing resources for supervision of high-risk offenders.
- Averaged within 10% of the 100 workload-point standard in Adult Field Services caseloads.
- Shifted Juvenile Field Supervision boundaries to balance workload and ensure deputies could provide the appropriate level of supervision.
- Adjusted workload standards for juvenile sex offenders so deputies could more intensively supervise these cases.
- Continued to develop and enhance collaboratives to facilitate the highest quality of supervision and resocialization of offenders.
- Continued to develop relationships with service providers and pursue opportunities to establish relationships with community members at the Youth and Family Resource Centers.
- Provided administrative review of services offered by private providers of drug and alcohol treatment and residential services, as well as reviewed and approved domestic violence programs.

- Participated in planning and implementing a new Family Violence Court in North County.
- Partnered with Anaheim Police Department in the Anaheim Driving Under the Influence (DUI) grant (DUI Enforcement and Outreach Program).
- Worked closely with the Social Services Agency to address the requirements of AB 636 and other child welfare concerns.
- Continued to participate in multi-agency collaborations in the Juvenile Drug Court, WrapAround and Juvenile Sex Offender caseloads.
- Worked closely with more than 35 different substance abuse treatment providers for the Proposition 36/PC 1210 populations. Deputies made monthly or quarterly visits to the treatment providers, shared information about probation services, and addressed problems.
- Continued to use the National Institute of Corrections (NIC) Model (a recognized "best practice") to assess the risk and needs of probationers and determine appropriate levels of supervision to ensure public safety.
- Assessed the risk level of probationers to determine which cases would continue to be actively supervised and which cases would be placed on FM caseloads when budget cuts required staff reductions.
- Offered a required four-hour 'NIC Update' refresher course for all probation officers to reinforce the core components of the NIC Model, the risk and need assessment process, and objective-based case plans. A similar class, but with emphasis on objective-based case planning, was offered for staff in the institutions.
- Employed graduated sanctions in all supervision areas up to and including incarceration.
- INSTITUTIONAL SERVICES Began construction of a 120-bed Youth Leadership Academy for teenage boys and girls on the grounds of Juvenile Hall (JH) funded by a Board of Corrections grant.
- Started construction of Unit Q at JH in May 2003 using a Board of Corrections grant. It is targeted for occupancy on June 30, 2005. This project will provide 60 additional beds and four more classrooms within the Juvenile Hall compound.
- Continued the quest for potential sites for a South County Juvenile Hall.

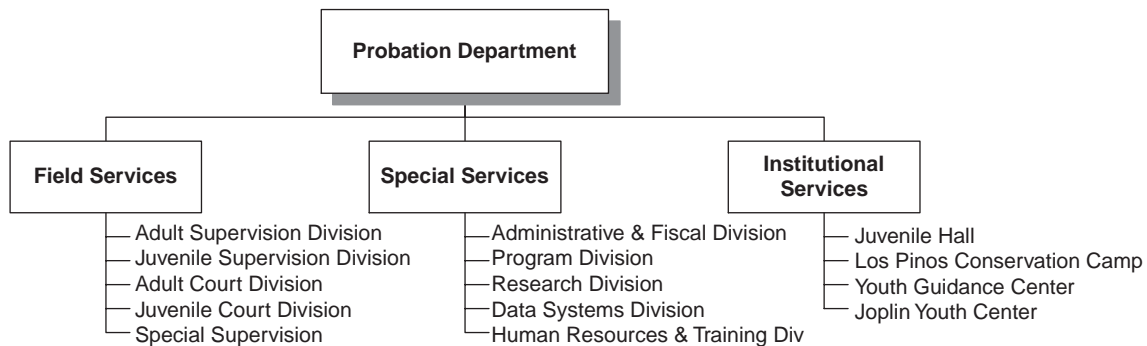

- Continued to seek ways to acquire the Los Pinos property as a permanent site. In the interim, Probation is in the final stages of negotiating a renewal of the Los Pinos Conservation Camp 20-year Special Use Permit with the U.S. Forest Service.
- Developed a system of converting existing units at Juvenile Hall from male to female units as the female population rises and falls to address the demographic shift of increased bookings of female juvenile offenders.
- Completed rehabilitation of a dormitory at Los Pinos scheduled to open by July 2005 that will house 32 female minors serving commitments at that facility. In addition to the dormitory, three classrooms will be added to offer gender-specific curriculum, emancipation, and vocational skills training.
- Moved forward on several deferred-maintenance projects at each of the institutions during FY 04-05. Probation will continue to aggressively pursue construction grant funding to provide the financial impetus to renovate and even replace portions of the aging structures. Additionally, Probation continues to seek capital project funding in the annual budget process in as prudent and proactive a manner as possible.
- Secured Juvenile Justice Crime Prevention Act (JJCPA) funds for 2004/05 to maintain the level of treatment services provided at the Youth Guidance Center (YGC) through grant funding at the same level as previous years after Residential Substance Abuse Treatment funds were reduced by approximately \$200,000.
- Continued to address the unique problems presented by seriously emotionally disturbed minors in custody.
- Efforts continued to develop a multi-county regional institution for severely emotionally disturbed minors.
- Sought funding to develop and expand in-custody programs with aftercare components.

Results of the screening are shared with the assigned deputy and HCA staff to ensure a focused, collaborative effort to meet the needs of this population.
- Continued to seek additional staff training by experts in the mental health profession on providing services to this population.
- Instituted the Institutional Population Management (IPM) system to mitigate overcrowding at Juvenile Hall due to a 5% increase in the average daily population coupled with the loss of 60 beds for the Youth Leadership Academy project.
- Installed Phase II of the automated Institutions Management System (IMS) on June 20, 2004 that allows in-custody population tracking and monitoring for Board of Corrections compliance, facility staff management, facility minor management, and an automated online log of unit activities.
- Continued to plan for immediate and future bed space and programming requirements through regular management review of demographic trends in the institutional population. Research Division staff monitored/reported on the daily institutional population and will update institutional bed projections by early 2005.
- Goal # 3:
- Assist crime victims by presenting their interests to the Courts and providing support services.
- Implemented steps to maximize financial recovery for victims.
- Provided four-hour training sessions to over four hundred probation staff covering responsibility for collection of restitution, fines, fees, and other financial matters such as Joint and Several Liability and civil remedies for victims.
- Deployed Collection Officers to the same geographic locations as the juvenile field units to improve communication and enhance effectiveness with juvenile field deputies.
- Reviewed and updated procedure manual items that address juvenile and adult restitution matters.

- Continued to work closely with the Courts to refine the Probation Financial System (PFS), maximize financial recovery for victims, and promote the accountability of offenders.
- Maintained a proper focus/balance on the importance of victims, consistently disseminated victim information, and reinforced the importance of promptly responding to victim inquiries.
- Assigned centralized duties and the title of Victim Services Coordinator to the department's new Senior Administrative Manager when the dedicated full-time Victim Services Coordinator (VS.) position was eliminated due to budget cuts.

- Implemented a new tracking system for victim response letters in Juvenile Court Services by sending letters to victims within 48 hours after the file is received. Once the victim responds, status of the case is tracked every three to four days, and the victim is notified of the outcome at the conclusion of the court case.
- Disseminated information about victim awareness events and activities to probation staff through PROB-NET, access to other Internet services, and communications from a variety of internal sources.
- Continued training and development of specialized supervision units have increased knowledge of the dynamics of crimes such as domestic violence and the importance of victim involvement in various phases of the criminal justice system.
- Added contact with victims of juvenile sex offenders as part of the overall supervision strategy for Juvenile Supervision Deputies.
- Offered Victim Awareness classes to staff in training year 2003/04 and will again offer them in training year 2004/05.

- Increased contact and coordination with victim advocates assigned to high-profile felony cases to facilitate obtaining victim impact statements and delivering services to crime victims.
- Obtained victim impact statements in 87% of victim-involved Adult Investigation cases.
- Reviewed the key process points related to victim restitution issues to improve victim services by identifying specific gaps in services and/or processes.

## Organizational Summary

**Field Services** - Field Services provides services through five distinct operational divisions: Juvenile Court, Adult Court, Adult Supervision, Juvenile Supervision, and Special Supervision. The Juvenile Court Division provides intake screening services for all juveniles referred by law enforcement agencies for alleged violations of the law, conducts preliminary investigations to determine if further referrals to the District Attorney and Court are necessary, provides Juvenile Court Officers to the Juvenile Court, conducts investigations for the Juvenile Court, administers peer court and drug court, and monitors diversion and administrative cases. The Adult Court Division conducts investigations for the criminal courts and monitors Courtesy Supervision and Welfare Fraud cases. The Adult Court Division also supplies Resident Probation Officers to the five justice centers.

The Adult Supervision and Juvenile Supervision Divisions supervise adult and juvenile offenders in the community on formal probation. These divisions enforce court orders and assist with the resocialization of offenders through a combination of direct and supportive actions based on ensuring community safety, addressing offender accountability, and promoting competency building in those adults and juveniles under supervision.

The Special Supervision Division supervises three sub-populations of high risk offenders: domestic violence batterers, adult sex offenders, and gang members.

**Special Services** - Special Services provides primary support services for the department's overall operation through five operational divisions: 1) Administrative and Fiscal, 2) Programs, 3) Data Systems, 4) Human Resources and Training, and 5) Research. This branch of Probation provides data

systems and research support, human resource services, administrative and fiscal services and collection enforcement for all functions in the department. This activity supports Departmental long-range planning, pursuit of outside funding, legislative analysis, contract administration, community resource monitoring, employee recruitment and hiring, and operation of the Volunteers in Probation (VIP), Volunteer Probation Officer (VPO), Probation Community Action Association (PCAA) programs. The Programs Division provides services for first-time juvenile offenders classified as having a high-risk potential for ongoing delinquency (8% Early Intervention Program) and transitional aftercare services for juveniles released from county correctional facilities (JJCPA and Challenge Programs). The Programs Division is also responsible for the department's Youth and Family Resource Centers.

**Institutional Services** - Institutional Services provides oversight and direction for the five county juvenile correctional facilities operated by the Probation Department: Los Pinos Conservation Camp, Joplin Youth Center, the Youth Guidance Center, Juvenile Hall, and Lacy Juvenile Annex. These facilities operate 24-hours-per-day, 7-days-a-week and must meet stringent guidelines established by the California Board of Corrections. Primary responsibilities include providing a safe environment for the juveniles in custody, ensuring sufficient well-trained staff are available, developing and providing a broad range of treatment programs to meet the juveniles' needs, adhering to all laws/regulations/licensing requirements for correctional facilities, and overseeing correctional facility maintenance and development.

In addition to the facilities, programs are provided that offer alternatives to confinement. The Juvenile Court Work Program allows offenders to work on weekend work crews in lieu of serving a commitment. The Accountability Commitment Program allows offenders to be released home on electronic confinement to a day-treatment program.

**Chief Probation Officer** - The Chief Probation Officer oversees the overall direction, administration and coordination of the operations and programs of the Probation Department, including the County's juvenile correctional institutions. The Chief Probation Officer coordinates the operation of all Probation Department programs and services: directs and consults with the three Chief Deputies of Institutional Services, Field Services, and Special Services in assigning projects and developing goals for their various divisions; develops and maintains effective working relationships with other social and law enforcement agencies, public officials, the judiciary, and community organizations to assess needs, develop priorities and maintain efficient/effective services; consults with the Board of Supervisors, County Executive Office, and Courts for policy direction and guidance; and provides fiscal oversight of the department's budget and expenditures.

### Ten Year Staffing Trend:

### Ten Year Staffing Trend Highlights:

- The Probation Department staff expanded from FY 97 to FY 03 primarily because of either new openings/service offerings, or compliance with County initiatives. Specifically, Probation opened a new 60-bed unit at Juvenile Hall, opened the Juvenile Hall Annex, offered new or expanded programs arising from the availability of new, non- General Fund sources, assumed decentralized County services, and converted extra help positions to regular, full-time in order to ensure compliance with the Probation Services MOU and its limited duration requirements for extra help personnel.
- In FY 02-03, while at its authorized position peak, it was incumbent upon the Probation Department to maintain 119 position vacancies throughout the year in order to operate within its authorized funding level. With cost increases again having outpaced available financing in FY 03-04, Probation needed to keep 152 positions vacant throughout the fiscal year and delete sixteen positions.
- Loss of TANF (Temporary Assistance to Needy Families), a critical funding stream for juvenile delinquency and institutional services, was threatened during 2004 for the FY 04-05. Although the money was eventually restored through provisions in the State General Fund, awareness of the importance of secure funding to support necessary probation services has been heightened at the County and State levels. On a positive staffing note, the Probation Department has just conducted its first Deputy Probation Officer Academy class in three years, deploying 29 new Deputy Probation Officers to much-needed posts. One more class is scheduled to commence shortly after the start of the FY 2005-06. Similar initiatives have been undertaken for Deputy Probation Counselor Academy classes as well.
- The opening of Juvenile Hall's Unit Q and the expanded Los Pinos capacity in July, 2005, as well as the new Youth Leadership Academy in July, 2006, have necessitated and will continue to drive staffing needs upward. These impacts have been assessed and proposed within the FY 05-06 Budget and Strategic Financial Plan.

## Budget Summary

### Plan for Support of the County's Strategic Priorities:

The Department has presented the required balanced budget, which will continue to serve the public and at the same time strive to maintain public safety. While we believe that our current levels of service are necessary to ensure continued balance of proactive and mandated activities between probationers and the communities of which they are a part, Probation also recognizes the County's need to structure services available to the resources at hand.

The Probation Department has nearly completed construction of the 60-bed expansion of its Juvenile Hall and commenced construction of the Youth Leadership Academy (which were adopted by the Board of Supervisors as Strategic Priorities in 1998), utilizing \$4.8 million and \$8.4 million in grant funds to offset the costs of construction, per our commitment in previously published strategic plan documents.

Other approved strategic priorities that are accommodated within the FY 2005-06 Budget include additional detention beds for older youths at the Theo Lacy Annex and the expansion of the Los Pinos Conservation Camp that allows operation of a 32-bed expansion of the facility.

The Probation Department continues to accept leadership roles on a Statewide basis to help facilitate County goals. The Chief Probation Officer will also continue to take an active role in supporting the Chief Probation Officers of California in the related pursuit of new revenue and the protection of existing revenue resources.

The Probation Department will again convene all managers to re-examine progress made in the past year on three strategic initiatives, represented by three workgroups and focus as follows:

(1) Labor/Management Relations - ways for labor and management to work together to benefit the workplace and the community. (2) Leadership Development - prepare our employees for greater levels of responsibility and advancement.

(3) Mission/Values Workgroup - review our values and ensure they are reflected in every facet of the services our department provides.

The Probation Department will continue to aggressively pursue new funding sources to support probation services. Related thereto, it is anticipated that all Probation Department fees will continue to be updated annually and presented to the Board for adoption at the onset of each new fiscal year.

### Changes Included in the Base Budget:

Operating costs for the Los Pinos Conservation Camp expansion and the newly completed Juvenile Unit Q are included in the Recommended Base Budget. The Operating costs for the Youth Leadership Academy requested as separate augmentation item. As discussed in the plan for support of the County's Strategic Priorities, all three initiatives have been underway for several years, and construction completion is imminent for Juvenile Hall's Unit Q and Los Pinos. Building occupancy for both institutional sites will commence on or around July 1, 2005, providing much-needed capacity to institutional operations. The Youth Leadership Academy's construction completion date is scheduled to be May 1, 2006, with occupancy beginning July 1, 2006. Staffing costs for the three institutional initiatives are included in the recommended requested budget in the amounts of: \$2.6 million for Juvenile Hall Unit Q, \$1.1 million for the Los Pinos expansion, and \$1.0 million for the Youth Leadership Academy. Additionally, 85 additional staff are recommended as augmentation budget request for the Youth Leadership Academy. Staff for the other two initiatives were added during FY 04-05, as previously authorized by the Board of Supervisors.

## 14R - WARD WELFARE

### Operational Summary

#### Description:

The Ward Welfare Fund is controlled by the Chief Probation Officer and is used for the benefit, education and welfare of detainees confined to Juvenile Hall or other County juvenile facilities and/or for the maintenance of these facilities at the Chief Probation Officer's discretion.

#### Strategic Goals:

- It is anticipated that funds not used directly for the welfare of the juvenile institutional detainees will be used to offset the cost of facility maintenance.

#### FY 2004-05 Key Project Accomplishments:

- The funds provided detained minors with the opportunity to participate in school-sponsored athletic and mock trial competitions, horticultural and culinary programs, cultural celebrations, and color guard presentations. Staff supported by these funds coordinated and developed planned recreational activities for the minors, as well as offered vocational guidance and instruction.

**Juvenile Hall** - Ward Welfare funds, which are comprised of proceeds from commissary operations and commissions from the use of collect-only telephones in the County's four juvenile institutions, are used to support cultural, educational, recreational and motivational activities for minors in

the institutional facilities.

#### Ten Year Staffing Trend:

### Ten Year Staffing Trend Highlights:

- Two positions were authorized by the Board of Supervisors in November 1998, in response to the new law establishing Ward Welfare funds for probation departments.
- Four positions were authorized by the Board of Supervisors in November, 2001, to implement a Vocational Instruction Program in Probation's juvenile institutional facilities.
- Lack of revenue has caused Probation to staff this function nominally during the past two years, a trend that continues into FY 05-06.

### Budget Summary

#### Plan for Support of the County's Strategic Priorities:

The Probation Department will use Ward Welfare moneys to relieve the County General Fund burden of supporting institutional program costs to the extent possible where such costs are clearly intended for the benefit of detained minors.

#### Changes Included in the Base Budget:

Funding for Ward Welfare has been stabilized at a higher level than in the past two years, and Probation plans to modestly expand cultural and educational opportunities for detained minors in FY 05-06 accordingly.

### Highlights of Key Trends:

- Departmental use of the Ward Welfare fund is 100% dependent on offsetting revenues, which have declined significantly in the past two years. The Department has succeeded in finding alternative funding for the match-

ing requirements of Youth Guidance Center's ASERT substance abuse treatment grant program for FY 04-05 and beyond. This action increases the funds available to benefit juvenile institutional detainees.

## Organizational Summary

**Public Defender Main Segment** - The Offices of the Public Defender consist of three distinct and separate law offices. These are the Public Defender Office, the Alternate Defender Office, and the Associate Defender Office.

The Public Defender Office - The main unit is referred to as the Public Defender Office and is made up of several distinct sections. In the Santa Ana main office at 14 Civic Center Plaza are the felony panel, the writs and appeals section, the W&I Code Section 6600 section, the capital case section, the training section, the computer systems section and senior managers. In a separate Santa Ana location is the Mental Health section, and in the City of Orange there is a juvenile court branch consisting of the child dependency section and the delinquency section. There are also five branch offices located in Fullerton (North Justice Center), Santa Ana (Central Justice Center), Westminster (West Justice Center), Newport Beach (Newport Beach Facility of the Harbor Justice Center), and Laguna Niguel (Laguna Niguel Facility of the Harbor Justice Center). Attorneys and support staff work at each of these locations. The main unit provides representation in approximately 69,200 cases annually. These include misdemeanor and felony criminal cases, Juvenile Court cases, and Mental Health cases.

**Alternate Defender** - The Alternate Defender Office is located in Santa Ana, and handles the first level of conflict cases (except for cases arising in Juvenile Court). There are approximately twenty lawyers employed in the Alternate Defender office, with a full complement of support staff (investigators, paralegals, interviewers, and clerical person-

nel primarily). The Alternate Defenders represent clients who, because of a conflict of interest, cannot be represented by the main unit, often because more than one defendant is charged. The Alternate Defender represents about 4,300 clients annually.

**Associate Defender** - The Associate Defender Office is located in Santa Ana and is staffed by two lawyers, with a small support staff. This unit handles complex cases (including capital cases). These are cases that, because of a conflict of interest, would previously have been handled by court-appointed private lawyers at greater cost.

**Public Defender Executive Mgt** - Department Head and immediate support staff.

### Ten Year Staffing Trend:

### Ten Year Staffing Trend Highlights:

- Staffing trends for the Public Defender often reflect demographic, economic, and sociopolitical changes. As a result of the bankruptcy in January of 1995 the Board

of Supervisors directed that the Office of the Public Defender be divided into three independent units. The newly created units undertook representation of conflict clients previously represented by court-appointed private lawyers, and the intended effect of this change was to produce annual savings to County taxpayers. The net effect of segmentation in the first year was a savings of \$6M and savings have since been approximately \$6-7 million annually.

- Other changes in staffing have occurred in response to court consolidation, the three strikes law, the expansion of the drug courts throughout the County, implementation of Proposition 36, appropriate representation of clients in the arraignment courts, and the development of several specialized courts to deal with the root causes of crimes.
- The fiscal year 2005-06 Net County Cost target was not adequate for the Public Defender to continue to maintain the current level of service. The Public Defender has absorbed an increase in felony cases last fiscal year by 13% in addition to the 16% growth the prior fiscal year, for a total of approximately 6000 new felony cases in just two years, with no additional staff. Of these complex felony cases, a rise in the number of homicide cases has also occurred. This increase in the number of homicide and complex felonies last year has had a major impact upon staff caseloads in the Superior Court unit. These complex cases often take years to prepare and resolve and require staff with considerable experience as well as case preparation, investigation, and research in order to adequately represent clients facing such serious charges. An augmentation to expand the Superior Court unit staff was required to handle these additional complex cases.
- Another major factor is the expansion and development of several specialized courts to deal with the root causes of crimes. These specialty courts require a great deal of attorney time to adequately represent clients, monitor client participation, assist clients with program resources and qualifications of enrollment. Two augmentations have been approved which request additional attorney and paralegal staff to work in these specialized courts.
- Future staffing needs could arise as a result of continually rising caseloads, changes in legislation, new program developments, trends in overall population increases in the County, economic hardship and/or unemployment, and other factors that affect caseloads.

## Budget Summary

### Plan for Support of the County's Strategic Priorities:

The County continues to face significant budget impacts due to the State budget reductions and the deferral of mandate reimbursement. These impacts are felt by all agencies in the County. The property tax issue and vehicle license payment are expected to have an impact upon the County General Fund again this fiscal year which is the primary source of funding for the Offices of the Public Defender.

The Public Defender's Office participated in the multi-phase plan for budget reductions in 2003 absorbing the shortfall from the deferral of mandate reimbursement for Public Defender services and reducing funding requested from the capital project program.

From fiscal year (FY) 2002-03 through FY 2003-04 the Public Defender absorbed significant increases in felony caseloads over two years without additional staff. Every effort has been made to absorb this increasing number of serious cases including the reallocation of staff and the filling of vacant positions.

CEO Real Estate has one County Strategic Priority that affects the Public Defender, the build-out of Building 16 in the Santa Ana Civic Center. The building is currently vacant and under utilized. The Public Defender would use the entire building for staff currently in leased space in the Civic Center area in Santa Ana if the County completes the build-out. If the County moves forward with the build-out of Building 16, the Public Defender would use the entire building for staff occupying space in the Civic Center area.

### Changes Included in the Base Budget:

To achieve the Net County Cost target without augmentations, the Public Defender would not be able to provide the current level of services required to represent clients appointed to the Public Defender by the courts.

In the past five years the Public Defender has seen a substantial growth in the number of felony cases. The Public Defender has absorbed an additional 6000 felony cases in just two years, with no additional staff positions. Of these complex felony cases, a rise in the number of homicide cases

has also occurred. This increase in the number of homicides and complex felony cases last year has had a major impact upon staff caseloads in the Superior Court unit. Another major factor is the expansion and development of specialized courts to deal with the root causes of crimes. These specialty courts require a great deal of attorney time to

adequately represent clients, monitor client participation, assist clients with program resources and qualifications of enrollment. Augmentations have been submitted which request the additional resources required to fulfill department obligations.

### Highlights of Key Trends:

- The Offices of the Public Defender provide high quality legal representation in a cost effective and fiscally responsible manner. People who come before the court in criminal, juvenile, dependency, and mental health matters are entitled by law to have counsel appointed to represent them when they lack the resources to hire an attorney. This right arises out of the United States Constitution, the California Constitution, Penal Code Section 987, and other statutes. If the Public Defender is unavailable the courts are required to appoint private counsel at county expense.
- The Public Defender is under directive of the Board of Supervisors to continue to accept cases appointed by the courts and not to get off cases without first notifying the CEO and Board of Supervisors.
- Caseloads trends continue to reflect significant growth over the past several years. In the last three years the Public Defender has absorbed a large increase in the number of felony cases without adding staff positions. The trend is continuing in 2004-05 and the department cannot continue to increase caseloads without additional resources.

- The Public Defender remains committed to the mission and goal set out in the department's Business Plan. The services provided continue to be based upon ethical, practical, and efficient values that are consistent with

County policies and procedures under the direction of strategic initiatives and sound business practice guidelines.

## 047 - SHERIFF COURT OPERATIONS

### Operational Summary

#### Mission:

The mission of Sheriff Court Operations is to protect and to serve the judiciary and the public by ensuring a safe environment in the Superior Courts of Orange County. All orders of the Court shall be served and enforced with a commitment to providing those services in the most efficient, courteous, and cost-effective manner.

#### Strategic Goals:

- Provide a safe environment and effective security services in and for Orange County courts.
- Provide effective warrant enforcement.
- Provide cost effective and efficient civil processing.

#### FY 2004-05 Key Project Accomplishments:

- Completed prisoner bus bay enhancements at the Harbor Justice Center/Laguna Niguel facility improving staff and inmate safety and security.
- Implemented weapons screening at the Harbor Justice Center/Laguna Niguel.
- Prepared a report to the Board of Supervisors on the efficacy of the Orange County Adult Alcohol and Drug Sober Living Certification Program and recommended amendments to the guidelines.

Two Court Operations Warrant Bureau investigators and one sergeant are assigned to the Task Force. The agreement provides for overtime reimbursement for task force activity; approximately \$24,000 was reimbursed for calendar year 2004.

**Court Services** - Court Security: One of the primary responsibilities of the Department is security of the Courts. Courtroom security is achieved by Deputies and Sheriff Special Officers (SSOs) assigned to bailiff the courtrooms. Bailiffs maintain and preserve order in the courtrooms, ensure proper decorum by remaining ready to meet and control unusual situations, and act to protect judges, witnesses,

defendants, and other members of the courtroom staff from harm. Additionally, bailiffs sequester juries during deliberations, provide information to Court clientele, schedule the arrival and departure of prisoners, and maintain custody of prisoners who have matters scheduled in their courtrooms. At the Lamoreaux Justice Center and the Central Justice Cen-

ter, SSO security personnel patrol courthouse hallways and operate airport-style screening for the purpose of weapons interdiction. SSOs also staff the 24-hour Security Desk in the Santa Ana courthouse. Each of the aforementioned functions is funded through Trial Court Funding.

**Detention:** Augmenting the bailiffs are the deputies responsible for the transporting and guarding of prisoners while at Court. Their duties include the operation of the court holding cells, booking defendants ordered into custody from the courtrooms, and standing guard while high-risk trials are in progress. Approximately 120,500 adult prisoners are processed in the Orange County Courts each year. Temporary holding functions, unlike 24-hour jail functions, are allowed under Rule 810 and the costs are, therefore, reimbursed by Trial Court Funding.

**Civil Process Services** - An important duty performed by deputies, civilian technicians, and clerical support personnel in this area is the service of civil process. These employees have the responsibility for serving and enforcing the subpoenas, orders, notices, summonses, and other process of the Court. Civil field deputies seize property under Court order, sell property seized to satisfy judgments, and enforce orders to evict tenants. The Department is actively engaged in technical reviews and plans that have the potential to reduce costs of operation and enhance the revenue-generating capacity of this service. These complementary goals will also provide a platform upon which an integrated network of user-friendly data gathering services may be expanded and connected with the Superior Court's system to track a case from start to finish.

**Warrant Services** - Court Operations' Warrant section is responsible for the service of felony and misdemeanor warrants of arrest. The investigators who serve them are front-line peace officers. The Department expects to receive almost 65,000 warrants during the calendar year 2005. While misdemeanor warrants issued to Sheriff Court Operations have decreased in recent years, labor intensive felony

warrants have increased. Sheriff Court Operations' aggressive warrant enforcement program ensures compliance with the legal requirements for due diligence, and serves as a deterrent for defendants that might otherwise have ignored Court orders.

**Administration** - Sheriff Court Operations Administration includes seven Lieutenants who have oversight responsibility for Special Operations, Justice Center Court Security, Civil Process Services and Warrant Services. In addition to the salaries and benefits (S&EB) for the above staff, Services and Supplies (S&S) are budgeted in this activity that support general administrative purposes.

**Executive Management** - This activity is comprised of a Captain for Sheriff Court Operations and the Captain's Secretary.

### Ten Year Staffing Trend:

### Ten Year Staffing Trend Highlights:

The Court has requested the restoration of these nine positions and their assignment as runners at the Central Justice Center as a means of providing an enhanced level of service to the criminal courts. Salary and benefit costs for these positions are fully offset by Trial Court Funding revenues pursuant to the County/Sheriff Memorandum of Agreement with the Superior Court. Total authorized positions has increased from 373 to 382 for FY 05/06.

## 132 - SHERIFF'S NARCOTICS PROGRAM

### Operational Summary

#### Description:

The purpose of the Sheriff's Narcotics Program (SNP) is to record costs and revenue related to narcotics law enforcement and educational activities. This fund includes the Sheriff's proportional share of revenue from narcotics cash forfeitures received by the Regional Narcotics Suppression Program (RNSP) and through the efforts of the Department's Narcotics Detail.

#### Strategic Goals:

- The goal of the Sheriff's Narcotic Program is to actively and aggressively investigate and pursue narcotics violators. The North and South Narcotics Units focus on street to mid-level traffickers who directly influence the quality of life of Orange County citizens.

#### FY 2004-05 Key Project Accomplishments:

- Budget requirements have resulted in the unit having to maintain a number of vacant positions. In addition, a recent merger of North Narcotics and Vice Details required some narcotics investigators to assist in vice-related investigations. These facts have not resulted in a decrease in arrests; however, monetary seizures decreased a small percentage.
- During calendar year 2004, 253 arrests were made. Seizures included \$375,700 in U.S. currency, 9 vehicles and 27 firearms.
- Processed marijuana seizures increased significantly to 393 pounds. Increases were realized in seizures of hashish, psilocybin (mushrooms) and illicit pharmaceuticals.

## 144 - INMATE WELFARE

### Operational Summary

#### Description:

The Inmate Welfare Fund allows the majority of Orange County Sheriff-Coroner Department's inmate rehabilitation programs and services to be provided without cost to taxpayers. This fund is financed primarily through revenue generated from inmate use of telephones, profits from inmate purchases from the Jail Commissary (Agency 143), and contracts related to certified inmate education classes, conducted in partnership with Local Education Agencies (LEA's).

Inmate programs and services related to rehabilitation opportunities are mandated by Title 15 Minimum Jail Standards and related case law. These activities are planned, coordinated, conducted, and evaluated at each OCSD jail facility by the Correctional Programs Unit. Typical programs

include certified education in academic studies, vocational education training, and "life skills" classes such as Parenting and Job Development. The Programs Unit also provides opportunities for personal change, including programs focusing on substance abuse recovery, domestic violence and anger management, fitness and exercise, general and law library services, religious and inspirational programs, and pre-release preparation and assistance - all designed to maximize the chances of an inmate's successful transition to the community at release.

#### FY 2004-05 Key Project Accomplishments:

- Commissary, Inmate Welfare, Inmate Programs and Food Services are now part of a new Division, Inmate Services. With the establishment of the Division, greater efficiency in the use of Management and other key positions have occurred.
- Through vocational training and donations from the community, the inmates of the James A. Musick Facility participated in Project Playhouse. This is a fundraising event for HomeAid, a non profit organization, which helps to alleviate the transitionally homeless problem. Transitionally, homeless is defined as those in immediate need of food, clothing and tempo-

rary shelter due to such factors as sudden loss of job, catastrophic illness or spousal desertion. A Seaside Cottage was constructed by inmates; most of whom had never previously participated in any construction activities. The cottage received three awards for Community Spirit, Following Instructions and 3rd Place overall.

# 14B - COUNTY PUBLIC SAFETY SALES TAX EXCESS REVENUE

## Operational Summary

### Description:

Passage of Proposition 172 The Public Safety Sales Tax (PSST) in 1994, provided counties a method to maintain their funding commitment to public protection after the diversion of property tax dollars by the State to school programs.
